Code: 1541021

wePresent WiPG
Wireless interactive Presentation Gateway

wePresent 2000 Code: 1520160

The **wePresent 2000** is the perfect solution for all meeting rooms and executive boardrooms. The **wePresent WiPG-2000** wireless presentation system has advanced features like an onboard USB media and document player, a streaming-video player, and 1-to-4 network video distribution capabilities.

SharePod Code: 1520162

The **SharePod** is a unique pairing solution to wirelessly connect any HDMI source into a wePresent environment. Pair the **SharePod** with a **WiPG-2000**, enabling seamless collaboration in meetings and classrooms.

MONTAGE
by **DisplayNote** Technologies

Capture, Contribute, Share Content, Collaborate

Montage is a solution that helps you meet smarter, see clearer and decide better - bringing together wireless presentation, communication & collaboration and designed to make meetings as productive and effective as possible.

Using Montage in meetings allows you to save time and keep everyone on the same page by letting up to 4 key contributors and decision makers fully participate, whether they're across the room or across the world. All attendees can stream what's on their devices to a main display, all at the same time and without the need to fight IT problems and struggle with cables.

4 Attendee Screens
Up to 4 devices connected and shown simultaneously

File Share
No need to leave Montage to share content directly

In-room & Remote
Join from across the room or across the world

Secure
Password protected access

Active Display
Any attendee can go full screen on the main display

Annotation
Add emphasis to content and expand on ideas

Need more connections, video and audio? Upgrade to the Montage box.

Multi-Platform. No matter what device you have, now you can wirelessly stream to your large format display.

LYNXPRO MEETING

LynxPro Meeting

Comprehensive tools
With multiple pens, colours, and gestures getting your message across has never been easier.

Meeting templates
A selection of templates are available, so you can easily brainstorm, plan, and exchange ideas, without the need for lots of pre-meeting prep.

Choose and annotate over your files
You can import files including video, pdfs, office documents, and images, and annotate and make notes over them. You can also switch to desktop mode, to annotate over any software that you have on your PC.

Personalised custom settings
Users can customise brushes and background canvas settings to fully meet the demands of the activity.

CLEVERTOUCH PRO

Why Choose **Clevertouch Pro?**

Combine functionality and simplicity…
Re-invent your boardroom, office, or meeting room with **Clevertouch Pro**

- It works just like a flipchart or whiteboard, but it's digital – simply turn it on and start writing.
- Pre-installed apps make it easy to open and edit most file types – office documents, pdfs, audio, 4K video, and images.
- Connect mobile devices in the room, or globally.
- Share notes instantly when you're finished using email, save and Cloud functions… all without a computer.

Want to start a meeting?

It's as simple to use as a tablet – just turn on and go. All your apps and files are just one click away. Open a document from the internal memory, from a USB stick, or wirelessly upload to the **Clevertouch Pro.**

Want to wirelessly connect or BYOD?

- Use the **CleverShare** device to connect your PC without wires.
- View images, play a video, or share documents from your PC, tablet or phone, by downloading the **E-share** app on to your mobile device.
- Using the **Montage** app connect your PC, iOS, or Android device and collaborate, annotate and share documents.

Want an electronic flipchart?

Use the LynxPro app to bring up a whiteboard. Simple to use with built-in gesture control allowing the user to add pages, roam and expand with a swipe. Send out the notes to all meeting attendees via email instantly, or save them directly onto USB.
